

HANNE KAH

FAMILY

about the band

original - folk - female - queer

an unusual description for a band playing music of the folk genre. Even more unusual is that the band in question comes from Germany. Hanne Kah, 4 musicians from the small city of Mainz, in the heart of Germany, have become known as one of folk's most respected voices in Germany.

Family - Release: 11/04.2022

"Our brandnew single is called FAMILY and it's a song, that's very dear to my heart! 2021 was a year of loss and bad news for my family and me and when tragedy hit's you there's no immediate grief. There's numbness, weakness and disbelief and first and foremost the question: how to continue?

But the worst times often show the best in humanity, so we stuck together! My family, as well as my extended family - which is my band. Covid couldn't throw us back, so there was no stopping now.

We got together.

Cried.

Laughed.

...and all of this fueled our creativity until there was this song. FAMILY. It is a song of love and of hope. It's a light in the dark, an umbrella in the rain, a spoon in a soup. It is what family would sound like to us, if it were a song. So grab your dear ones. Tell 'em you love them.. and even if they're not around anymore, remember:

where are you? i am still right here!" - Hanne Kah
